Bangalore, Karnataka | +91-7019876417 | sachisach07@gmail.com | [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Cloud & Infrastructure Enthusiast with 2+ years of hands-on experience in Linux server administration, web hosting, application deployment, DNS management, and production support. Experienced in deploying Laravel, Node.js, React.js, Next.js, and WordPress using Nginx, PM2, and Plesk. Skilled in troubleshooting hosting, email, and infrastructure issues while maintaining SLA compliance. Currently building expertise in AWS EC2, S3, Route53, and IAM.

TECHNICAL SKILLS

Hosting & DNS	Plesk Panel, DNS (A, MX, TXT, CNAME), FTP, IMAP, POP3, SMTP, SPF, DKIM, SSL Management
Web Deployment	Laravel (PHP), Node.js, React.js, Next.js, WordPress, PM2, Nginx, Apache, Nginx Reverse Proxy, SSH, Shell Scripting
Cloud Platforms	AWS EC2, S3, IAM, Security Groups, Route53, Linux (Ubuntu/CentOS), Windows Server, Server Provisioning
Version Control & CI/CD	Git, Bitbucket, GitHub Actions, Jenkins, Terraform, CI/CD, Repository Management
Database & Monitoring	MySQL, Jira, Backup & Recovery, Performance Optimization, Ticketing Systems

PROFESSIONAL EXPERIENCE

IT Server Executive | Web Digital Mantra IT Services, Bangalore

Feb 2025 – Present

- Deployed and maintained Laravel, Node.js, React.js, Next.js, and WordPress applications on on-premises Linux servers using Nginx and PM2.
- Managed DNS records (A, MX, TXT, CNAME, SPF, DKIM) for 190+ client domains, resolving issues within 1-hour average response time.
- Maintained Plesk hosting environments supporting 190+ client websites, ensuring consistent performance and availability.
- Configured PM2 startup scripts for auto-recovery; implemented backup and recovery procedures ensuring zero data loss.
- Provisioned FTP accounts and configured IMAP, POP3, and SMTP protocols across client domains for reliable email delivery.
- Reduced recurring support tickets by documenting resolution procedures; maintained SLA compliance across all client accounts.

Associate I – Lab Support Engineer | UST Global (Client: Intel Technology India Pvt Ltd), BangaloreFeb 2024 – Feb 2025

- Administered Jira workflows, permissions, and project configurations for enterprise operations.
- Installed and configured Linux and Windows Server on lab machines; conducted upgrades, maintenance, and platform monitoring.
- Resolved platform integration issues with documented root cause analysis; assisted users within SLA across rotational shifts.

KEY PROJECTS & DEPLOYMENTS

AWS EC2 Web Application Hosting — AWS EC2, Nginx, SSL, Route53, Security Groups

- Hosted a web application on AWS EC2 with Nginx reverse proxy, SSL configuration, Route53 DNS integration, and Security Group hardening.

Laravel Web Application Deployment — PHP, Laravel, Nginx, MySQL, Plesk, SSL

- Deployed a Laravel app on Linux with Nginx, SSL, DNS configuration, PHP dependencies, DB migrations, and automated backups — zero downtime post go-live.

Node.js, React.js & Next.js Deployment — Node.js, React.js, Next.js, PM2, Nginx, DNS, SSL

- Deployed Node.js, React.js, and Next.js projects with PM2 process management, Nginx reverse proxy, domain mapping, SSL, and post-deployment monitoring.

WordPress Deployment & Support — WordPress, PHP, MySQL, Nginx/Apache, Plesk

- Deployed and maintained WordPress sites on Linux; resolved plugin/theme/DB issues, managed updates, user roles, backups, DNS, and SSL certificates.

EDUCATION

B.E. – Civil Engineering, East West Institute of Technology (EWIT), Bangalore

2022

Diploma – Civil Engineering, SRVR Polytechnic, Guledgudd

2018

CERTIFICATIONS

- AWS Certified Cloud Practitioner (CLF-C02) – Amazon Web Services
- DNS Fundamentals Certification – ICANN
- Git Essential Training – Completed
- DevOps Foundations Training – JSpiders, Bangalore
